

Task 2 – Report

COS30031 – 102564760

Ryan Chessum

-Researched c++ References:

<https://www.cplusplus.com/> (useful reference with good explanations)

<https://en.cppreference.com/w/> (another good reference, layout is hard to read sometimes though)

-Created a method that accepts two values and prints them to screen

-Created a function that accepts a value, alters it and returns it

-Demonstrated use of pointers

-Split a string up by spaces

-Demonstrated using a class with function and variable members with different accessibility level

-Demonstrated creating an instance of a class
